PROFILE

Dynamic and results-oriented Product Manager with **2 years** of experience in **Agile digital product development, API integrations, user story writing, product documentation, and cross-functional collaboration**. Demonstrated ability to deliver products that enhance user experience and increase revenue. Proven expertise in managing the full product lifecycle, optimizing digital journeys, and leveraging **data analytics** to drive measurable outcomes.

EXPERIENCE

- Product Manager, ICICI Bank** *Jul' 24 - present*
 - Led the revamp of the Net Banking Payment Gateway (v3.0) UI, improving navigation flow, payment success visibility, and overall user experience for **10M+ active users**.
 - Drove the end-to-end product revamp of backend payment APIs, prioritizing scalability and efficiency, resulting in a **35% improvement in transaction reliability**.
 - Integrated NPCI as a payment gateway to enable **RBI-compliant interoperable NetBanking via NBBL**, enhancing transaction coverage and compliance.
 - Introduced push notification and QR-based authentication, reducing login and payment initiation times by **40%** compared to legacy OTP and grid methods.
 - Streamlined aggregator issue resolution by enabling real-time error code mapping in status update APIs, reducing manual query handling by **25%**.
 - Monitored daily transaction journeys using **Dynatrace and Adobe Analytics**, identifying and resolving performance bottlenecks that improved payment success rates by **8-10%**.
- Business Intelligence Unit Intern, Axis Bank** *May' 23 - Jul'23*
 - Developed a Credit Card Turnover Score model using Random Forest, enabling precise lead segmentation and **increasing campaign conversion rates by 25%**.
 - Designed a **centralized, non-redundant database** to manage **10M+ monthly cash transactions**, improving data reliability and accessibility for business teams.
 - Created a live CX dashboard to monitor system drop-offs, transaction failures, and latency, **reducing incident response time by 20%** through real-time visibility and actionable insights.
- Prompt Engineering Intern, Outlier.AI** *May' 24 - Jun' 24*
 - Crafted and refined prompts for a wide range of programming questions in **Python, JavaScript, Java**, and **C++**, improving **the accuracy of AI-generated code responses by 8%** and enhancing overall output quality.
 - Reviewed **500+ AI-generated code responses**, identified recurring error patterns, and recommended prompt adjustments that improved maintainability and adherence to best coding practices.
 - Designed structured feedback loops and **evaluation frameworks (chain-of-thought, few-shot prompting)** to train AI models, boosting **response precision and contextual relevance by 15%**.

PROJECTS

- Smart Feedback Router** *Jan' 25 - Apr' 25*
 - Built an AI-powered triage system to auto-route support tickets across Tech, Billing, and UX queues, **reducing manual routing time by 70%** and **improving first-response time by 35%**.
 - Defined a comprehensive PRD with clear routing logic, model integration (BERT), error handling workflows, and **success metrics including model accuracy (92%)**, average ticket latency, and SLA adherence.
- ScaleMate – Scalable URL Shortener with Analytics** *Oct' 24 - Dec' 24*
 - Built a scalable URL shortener system using **Node.js, Redis**, and **MongoDB**, supporting **1M+ redirects/day** with custom aliasing, expiration logic, and **<50ms redirect latency**.
 - Designed a backend architecture with **load balancing, caching**, and an asynchronous analytics pipeline using **Kafka** to track click data and real-time traffic patterns.

TECHNICAL SKILLS AND INTERESTS

Product & Data Skills: Product lifecycle management, Agile Project Management, System Design and Architecture, MVP scoping, Data Management Strategies, Adobe Analytics, Jira, Adobe Experience Manager (AEM), Dynatrace

Technical Stack: Docker, Kubernetes, Kafka, C, C++, Python, Java, JavaScript, Node.js, React, Express.js, Django, HTML, CSS, AWS, Postman, Git/GitHub, VS Code, MS Excel

EDUCATION

–Indian Institute of Technology, Kharagpur
Bioscience and Biotechnology Engineering

Nov. 2020 – Jun 2024
GPA 8.64
